DESIGNED BY YOU, BUILT WITH CONFIDENCE.

Your department's priorities drive the design of your truck. We incorporate world-class features into your apparatus such as spacious compartments, adjustable compartment shelves, roll-up doors, booster tank up to 1200 I.G., LED lighting, and an undercoated body. Deploying a high-performance ER-X pumper as part of your fleet, you're confident because you know it's *One Tough Truck* designed and built for any situation, every time, and on every call.
