ONE TOUGH TRUCK

**RESCUE
VEHICLES**

18ft. Walk-Around Rescue
Esquimalt Fire Rescue

**WHY FORT GARRY
FIRE TRUCKS?**

Our walk-in rescues, command rescues, and walk-around rescues are engineered for the harshest road conditions and environments in the world featuring a full-framed 6061-T6 aluminum extruded sub-frame utilizing 5083 saltwater marine-grade aluminum compartments. We also boast the largest fire apparatus engineering department amongst our Canadian competitors that specialize in designing *One Tough Truck* that will exceed the demands of your fire department.
